book fest award winning author and thought leader dawson church ph d blends cutting edge neuroscience with intense firsthand experience to show you how you can rewire your brain for happiness starting right now neural plasticity the discovery that the brain is capable of rewiring itself is now widely understood but what few people have grasped yet is how quickly this is happening how extensive brain changes can be and how much control each of us has over the process in bliss brain famed researcher dawson church digs deep into leading edge science and finds stunning evidence of rapid and radical brain change in just eight weeks of practice 12 minutes a day using the right techniques we can produce measurable changes in our brains these make us calmer happier and more resilient when we cultivate these pleasurable states over time they become traits we don t just feel more blissful as a temporary state the changes are literally hard wired into our brains becoming stable and enduring personality traits the startling conclusions of church s research show that neural remodeling goes much farther than scientists have previously understood with stress circuits shriveling over time simultaneously the enlightenment circuit associated with happiness compassion productivity creativity and resilience expands during deep meditation church shows how the 7 neurochemicals of ecstasy are released in our brains these include anandamide a neurotransmitter that s been named the bliss molecule because it mimics the effects of thc the active ingredient in cannabis it boosts serotonin and dopamine the first is an analog of psilocybin the second of cocaine he shows how cultivating these elevated emotional states literally produces a self induced high while writing bliss brain church went through a series of disasters including escaping seconds ahead of a california wildfire that consumed his home and office and claimed 22 lives the fire triggered a painful medical condition and a financial disaster through it all church steadily practiced the techniques of bliss brain while teaching them to thousands of other people this book weaves his story of resilience into the fabric of neuroscience producing a fascinating picture of just how happy we can make our brains no matter what the odds

over the past forty years state provincial and local governments in the united states and canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas this has included tax abatements infrastructure construction land giveaways job training programs and other subsidies as of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed north america despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the united states and canada before launching vehicle plants in developed north america each has followed its own specific historical development path and has created its own unique growth trajectory this book provides a unique historical and

qualitative review of these ten vehicle makers from their early beginnings to their export entry into the united states and or canada through early 2015 in addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the united states and canada this includes the first foreign automaker to build its cars in the united states de dion bouton of france in july 1900 the early 20th century endeavors of fiat mercedes and rolls royce and the present day hopes of chinese and indian automakers in the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the united states and canada and to help them take a more holistic look at the pros and cons of attracting automobile manufacturing fdi it is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in north america and worldwide
